B.Tech

Electronics and Communications Engineering
Institute of Engineering and Management, Salt Lake Campus | 7th semester | 2025 present 9.33 CGPA

📅 2022 - 2026

PROJECTS

My Portfolio

Developed a responsive portfolio website using React, and Tailwind CSS with interactive animations and a functional contact form.

Animated Gaming Webpage

Designed and developed an animated gaming website frontend with immersive video backgrounds, interactive UI elements, and smooth CSS/JS animations for an engaging user experience.

Airbnb Clone Website

Built a full-stack Airbnb clone using JavaScript, Node.js, Express.js, MongoDB, EJS, and CSS with user authentication, property listings, bookings, reviews, and a responsive UI for seamless user experience.

Grocery

Developed a full-stack grocery ordering platform using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB with AI-assisted product search.
